

The war news received here within the last few days encouraged the idea that peace will soon bless the French and Prussian nations. An armistice of twenty five days is reported to have been agreed upon—to extend from the 4th to the 28th inst. In the meantime, Nov. 15th, the French people were to hold an election at which officers were to be chosen in whom authority could be reposed with which the Prussian government could treat in arranging the details of a permanent peace. Paris was to have access to the outer world, but the Prussian army was not to be removed, nor to act offensively toward their enemies. It was also said that the city had four months provisions, and were enabled to hold out until spring. Monday's papers, however, seem to cancel the report of a truce, as the French authorities refused to accept the terms of peace. Further advices will develop the true condition of affairs.

Superintendent Bateham, of the Illinois schools, discusses the question of building expensive school-houses in a plain, common sense way, which all can understand and appreciate. Admitting that "next to an accomplished professional teacher, sympathizing public sentiment, and a convenient, well arranged, and well furnished school-house is the most essential condition of success," he deprecates "a strong tendency in many quarters, to build imposing and showy school-houses, entirely disproportionate both to the present pecuniary ability, and the present educational needs of the district. For a district of small population and moderate wealth, to plunge itself into debt from which it can only be extricated by years of harassing and exhaustive taxation, in order to erect a school-house that shall rival or eclipse in costly embellishments and architectural display, that of some equally imprudent or more populous and wealthy neighbor, is unwise and reprehensible." He also disapproves of "making the third story of these houses into halls and suggests that such an arrangement can be obtained by having movable partitions in the school rooms. Illinois is not peculiar in this matter of building expensive school-houses. The principle will apply not only to school-houses but to other classes of people who are putting up expensive edifices at great cost, and going over head and ears in debt.

The GRAND DIVISION of the Sons of Temperance held the 27th annual session of the order, for Ohio, at Cincinnati, on the 26th and 27th ult. Isaac Trescott, of Salem, G. W. P. for the past year, made a rather interesting report of the state of the order. There are now some 200 divisions in the state, and they are in a better working condition than they have been for years. Two lecturers have been earnestly at work for the last twelve months, and they with two additional speakers are to continue their labors. The next annual meeting will be held at Newburg, commencing on the last Wednesday of October, 1871, and the semi-annual meeting is to take place in April next at Williamsburgh, Clermont county, coming on the fourth Wednesday of that month. During the progress of the convention, Mr. S. F. Carey made a speech in which he freely denounced those who have been circulating the report that he has violated his obligation. He stated that he has faithfully adhered to the temperance pledge which he adopted in 1832, and aided, in 1844, to institute the first division in Ohio. He has, therefore, been a pledged man for nearly forty years, and we hope proved ever consistent to that promise. Among the ablest temperance advocates in the country, he has done much for the noble cause which he has been pleading for, and it is hoped that he may continue to work. He suggested to his hearers, in his Cincinnati speech, that if any of them heard anybody charging him with violating his pledge, to knock the offender down; and if they did not feel able to do so, just refer such cases to him. The Grand Division discussed the propriety of having colored delegates, to represent Divisions of their own people in the annual meetings, as there are several subordinate colored people's divisions in the state. A resolution in favor of the measure was adopted, but it is reported that it was reconsidered, and then it was decided to refer the matter to the subordinate divisions, and let it be decided there. This looks like shirking responsibility, just as certain other bodies, religious, social, and political, have done before. The question is to be met at some time, and better dispose of it, or it will not cease to haunt the order. Mr. Carey was for keeping

the colored people separate. His new politics will account for that. The following officers were elected for the ensuing year. J. C. Campbell, Cincinnati, G. W. P.; Mrs. Ellen Cabban, Cleveland, G. W. A.; H. V. Horton, Cincinnati, G. S.; J. B. Thompson, Columbus, G. Treas.; Rev. Samuel Scott, Dayton, G. C.; Mrs. E. T. Silver, Salem, G. Sent.

Our neighbors, Messrs. Hull & Hudson, editors and proprietors of the *Mahoning Register*, one of the best of country papers, are publishing articles, both as editorial and from correspondents on the subject of mining legislation. It is certainly a matter worthy of consideration of statesmen and legislators, and must at no distant day secure that attention that its importance demands. Mining is a most useful avocation, but from its nature is beset with many dangers to which people outside of mines are not subject. It is for the protection of the lives of men in this sort of work that these discussions are carried on—a most laudable undertaking. In this connection it is also suggested that legislation in regard to other dangers, involving the safety and security of life, such as are incident to steamboat and railroad traveling, workers in powder mills and various kinds of manufacturing, may very properly be added. The subject is full of interest to us all; and if anybody has ability to discuss it in an intelligent manner, it will be far better than indulging in personal and political abuse, obscene gossip, or indulging in romantic yarns, destitute alike of wit, sense, and often common decency. Connected with legislation favoring the protection of human life, the writers in the *Register* also very properly suggest that miners and their employers hold public meetings at which their mutual interests can be discussed, and a better understanding between parties can be secured. Long since the same idea has occurred to us, and several years ago we recommended a course of this description in these columns. Had something of this kind been practiced for years those unfortunate strikes, which have so often blighted the industrial prosperity of hundreds of men, resulting, many of them, in evil consequences, might have been avoided.

Elsewhere it is intimated that the expected armistice is broken off. Later accounts confirm this statement. Bismarck exacts compensation for the expenses of the war by taking territory claimed by France before hostilities began. The French leaders refuse to agree to this, so the work of destruction goes on. The people of that unfortunate country must be infatuated to think they can hold out against such fearful odds as are against them. They will have to submit.

Some of our contemporaries are terribly disturbed about the existence and organization of a political prohibition party, and seem to think that it will lead to fearful consequences. While they are thus indulging in these reflections there are forces of soldiers, marines, policemen, and officials at work, literally destroying and demolishing illicit distilleries, in the city of New York; and all this is going on according to the authority of the national laws and by order of the president and his highest officials. Now here is not only prohibition, but also, destruction, for these forces are not only demolishing distilleries, but they are throwing out all the whisky they can find. Will these complainers give some attention to the destroyers of this good creature of God, and the machinery that makes it?

DAIRIES AND VINEYARDS.

The Columbus correspondent of the Cincinnati Gazette compiles from the forthcoming Ohio Agricultural Report the following facts and figures concerning dairy and vineyard products in the state:

BUTTER AND CHEESE.

Ashtabula leads the state in butter, having produced 1,001,911 pounds. Wayne follows closely with 829,554. Trumbull stands third, with 869,825. Lorain, 840,805. Portage, 824,337. These are the only ones that each go up to 800,000 pounds.

Ashtabula led also in 1868, but Lorain, which was then second, is now fourth.

In cheese, Geauga county, which is truly behind in a great many things, vindicates herself, produces the enormous quantity of 5,543,980 pounds, an increase of a half a million over her product in 1868, when she also led the state. Trumbull stands next but a good way off from Geauga, with 2,688,464 pounds. Ashtabula is third—2,771,810 pounds. These are the only counties each reaching as high as two million pounds.

Seneca county seems to have produced no cheese; Montgomery county only 100 pounds; Shelby, 150; Ottawa, 150. No other county falls below 200 pounds.

GRAPES AND WINES.

Washington county went heaviest into the grape vine planting business in 1869, and put in 160 acres. Ashtabula and Cuyahoga each followed with 122 acres.

Erie county has altogether more acres in vineyard than any other in the state—392—and gathered in 1869 the most grapes therefrom—812,515 pounds. Cuyahoga comes next, gathering from 1,114 acres 896,198 pounds. Ottawa stands third, with 209 acres and 747,146 pounds. Lorain 207 acres; 295,562 pounds. Ashtabula 204 acres; 117,078 pounds. No other county gathered as much as a hundred thousand pounds.

It must be gratifying to little Ottawa to know that she leads the state in something. She does it in wine, the number of gallons produced in that county in 1869 amounting to 29,092 gallons. Lucas comes next with 25,180; Hamilton third with 15,076; Cuyahoga, 15,054; Erie, 12,634. No other county pressed as much as ten thousand gallons. Athens and Shelby counties alone seem to have pressed no wine; Jackson only one gallon, Greene three, Darke four, Paulding eight, and no other less than ten.

Greene county gathered fewer grapes than any other in the state—225 pounds, Hocking 235, Shelby 470, Preble 477, and Clinton 500. No other county fell as low as 500 pounds.

A Washington correspondent says Grant is of the opinion that Bismarck certainly ought to have forced his way through the Prussian lines at Metz. "I would have got out of the fix some way," were the words of the president.

Constable's Sale.

Lucy Kennel and others, plaintiffs, vs. Canal Boat W. H. Smith, defendant. Before Edwin Jarvis, Justice of the Peace, Perry Tp., Stark Co., O.

By virtue of sundry orders issued by E. Jarvis, Esq., one of the justices of the peace in said county, in the above and other cases before him pending, I shall expose to sale on Saturday, the 19th day of December, 1870, at one o'clock p. m. on the canal bridge in this city, the canal boat W. H. Smith, a watercraft of over twenty tons burden, navigating the waters within the state of Ohio. Terms cash. Sale positive.

E. J. RASER, Constable.
Massillon, Nov. 8. 84-2w

Legal Notice.

Notice is hereby given that a petition will be presented to the commissioners of Stark county, Ohio, at their next meeting to be held on Monday, the 5th day of December, A. D. 1870, praying for the location of a county road along the following described route, to wit: Beginning on the westerly line of Mill street in the city of Massillon, in the township of Perry, and in the said county, at a point across from and opposite to the westerly terminus of Cherry street, and running thence westerly through the lands owned by Michael Kilpfe, Joseph Seiler, J. F. Satterlin, James Bayless, Noah Madison, and Henry Reed, to the easterly line of Water street in said city, at or near the point of separation of the North Wooster road, leading westward, from said Water street. E. J. RASER, Constable.
Massillon, O., November 1, 1870. 83-4t

MONEY CANNOT BUY IT!

For Sight is Priceless.

THE DIAMOND GLASSES,

Manufactured by

J. E. Spencer & Co., N. Y.,

Which are now offered to the public, are pronounced by all the celebrated Opticians of the World to be the most Perfect, Natural, Artificial help to the human eye ever known.

They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond," on account of their hardness and brilliancy.

THE SCIENTIFIC PRINCIPLE on which they are constructed brings the center or center of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural healthy sight, and preventing all unpleasant sensations, such as glimmering, and watering of the sight, dizziness, &c., peculiar to all other eye glasses.

They are Mounted in the Finest Manner in frames of the best quality, of all materials used for that purpose.

Their Finish and Durability cannot be surpassed.

CAUTION.—None genuine unless bearing their trade mark stamped on every frame.

JOSEPH COLEMAN, Jeweler and Optician, sole agent for Massillon, Ohio.

From whom they can, only be obtained. These goods are not supplied to peddlers at any price. 373-1y

Dauchy & Co's new Advertisements.

Season of 1870-71.

Mason & Hamlin Cabinet Organs.

IMPORTANT IMPROVEMENTS

Patented June 21, and August 23, 1870.

REDUCTION OF PRICES

The Mason & Hamlin Organ Co. have the pleasure of announcing important improvements in their cabinet organ, for which patents were granted them in June and August last. These are not merely meretricious attachments, but enhance the substantial excellence of the instrument.

They are also enabled by increased facilities for manufacture, to make from this date, a further reduction of prices on several leading styles.

Having completed and added to their former facilities a large new manufacturing, they hope hereafter to supply all orders promptly. The cabinet organs made by this company are of such universal reputation, not only in America, but also in Europe, that few will need assurance of their superiority.

They now offer four octave cabinet organs in quite plain cases, but equal according to their capacity to anything they make, for \$50 each. The same double reed, \$65. Five octave double reed organs, five stops, with Knickerbocker and Tremulant in elegant case, with several of Mason and Hamlin improvements, \$123. The same extra, with new Vox Humana, Automatic Swell, &c. \$190. Five octaves, three sets reeds, seven stops with Euphonia; a splendid instrument \$225.

A new illustrated catalogue with full information, and reduced prices is now ready, and will be sent free, with a testimonial circular presenting a great mass of evidence as to the superiority of these instruments, to any one sending his address to the Mason & Hamlin Organ Co., 154 Tremont St. Boston, or 535 Broadway, New York.

LOCAL MATTERS.

A spirited meeting of those friendly to forming a Young Men's Christian Association was held on yesterday evening at Good Templars' Hall. All present seemed hopeful of success. Committees were appointed for different objects, who are to report on next Tuesday evening at the same place, when further measures will be taken to mature the organization. The will in this case will open the way, and the disposition is to make it a success. All friendly to the object are cordially invited to attend the next meeting.

FRUIT TREES.—S. B. Marshall would announce to his old customers, and the public generally, that in addition to his stock of trees, &c., at Massillon, (amounting to some 20,000), or upwards) he will supply from his Cleveland nursery, seed stock as may be necessary to render the assortment complete. Call and examine stock. Prices moderate. A good time for planting.

Crockery in large or small lots going at cost at Estep's.

When you want to buy any dry goods you can find the largest assortment at Ricks', at prices which are very cheap.

"Apples Almanac" was handsome last year, but it is truly elegant this season. Its illustrations are admirable—some of them are perfect gems. The calendar head of May, for instance, Apple Blossoms, and the one for June, Strawberry Gathering, are exquisitely beautiful specimens of wood engraving. There is more general information in the Almanac for 1871 than in the preceding years, and we find several delightful new poems among the literature, by Alice Cary, Stoddard, and others. The price of this little work of art with its beautiful butterfly cover, is forty cents, and this sum remitted to the publishers, Dr. Appleton & Co., New York, will secure a copy by return post.

When you want to buy any dry goods you can find the largest assortment at Ricks', at prices which are very cheap.

The New Lishon dress flannels at Estep's are high in colors, smooth surface, and will not shrink.

Laing, McKillip & Co. 347 Liberty street, Pittsburgh, send us their circular, in which they state that they are selling anthracite coal as follows: Broken \$11.25 per ton; eggs, \$11.25; stove, \$11.35; chestnut, \$11.25.

When you want to buy any dry goods you can find the largest assortment at Ricks', at prices which are very cheap.

The snow white velvet cord is a popular fabric, serviceable, washable and durable at Estep's.

The Adams' Express wagon promptly attends to all orders for transportation of parcels, light freight and express matter. Leave orders at the American Hotel. 30-1f

White and colored blankets, long and square shawls—a large variety at cheap prices at Ricks'.

If you want to keep expenses down buy your goods at London's Cheap Cash Store.

White and colored blankets, long and square shawls—a large variety at cheap prices.

Dr. Banning renders his acknowledgments to the medical profession, for their courtesy extended to him, during his recent professional stay in Massillon; and asks to inform them and others suffering from spinal, hernia, and other weaknesses, that he may be consulted at Salem, for a few days, for the application of his mechanical supports, and that the above affections will be successfully treated at the Banning Institute, at No. 11 St. Marks Place, New York, where such sufferers may resort.

White and colored blankets, long and square shawls—a large variety at cheap prices at Ricks'.

Everybody go to London's Cheap Cash Store and buy cheap; the choicest goods at the lowest rates.

A late number of the Akron Beacon gives the following item of social statistics for one week, though the third item must be more than one week's work. Births, four; marriages, three; divorces, nine; deaths, four. Rather think we could beat them here as to births, but in the other items we may be about even, excepting in the matter of divorces.

Now is the time to buy cheap dry goods, and a large variety to select from at Ricks'.

Now is the time to make money by buying your goods cheap. Go to London's Cheap Cash store, to get your groceries, cheese, and glassware, not at cost but a little cheaper than at any other place.

The masonic fraternity at Akron are making ample preparations to dedicate their new hall at that place, on the 17th. The brotherhood of this and other places are invited to attend.

Now is the time to buy cheap dry goods, and a large variety to select from at Ricks'.

Girl Wanted.—A good cook and house-keeper can find a permanent situation and good wages by addressing a note to Lock Box No. 14, Massillon Postoffice. 584-1f

Now is the time to buy cheap dry goods, and a large variety to select from at Ricks'.

The Court at Canton was engaged several days of last week on one case. Other business will engage their attention this week.

A large variety of plain and fancy colored dress and skirting flannels at Ricks', will be sold cheap.

Massillon seems to have been fortunate in selecting an appraiser of real estate, Mr. A. J. Humberger, whose work proves satisfactory to all parties—at least, no complaints that we have heard of are uttered. Other places were not quite so much favored.

See prospectus of *Harpers Magazine* in another column. This standard work, although venerable in years, continues to be as fresh and as good as new—one of the best of the class.

Mr. John Crissman of Tuscarawas township, left some very fine, large fall radishes—good as those in the spring—at this office, the other day, and a trial of their qualities proves them to be among the best. He also left here some of the finest and largest apples of the season, of the best quality, and in great variety. So highly are they appreciated that they sold for 70 cents a bushel, while the other apples are selling from 40 to 50 cents. Experiment has proved that they are among the most palatable fruit of that kind.

A large variety of plain and fancy colored dress and skirting flannels at Ricks', will be sold cheap.

We are indebted to Hon. J. A. Ambler for public documents among which is a bound copy of the Congressional Globe. This work embraces all the transactions of congress, with many of the speeches, and all the votes.

A large variety of plain and fancy colored dress and skirting flannels at Ricks', will be sold cheap.

Last Friday evening a large audience of people was well entertained by the singing of a great number of Sunday school children, at the M. E. Church. They had but a brief preparation for this occasion, but acquitted themselves without difficulty to the gratification of all present. There are some fine voices among them which if properly trained will be heard from hereafter. Prof. O'Kane, of Delaware, who has had considerable experience in this branch of teaching, managed the concert very well, and kept up the interest and good order until the last. The receipts amounted to about \$60, which more than pays for a large lot of music books suited for Sunday school purposes.

John A. Owens, and troupe of assistants, had a pretty full house of visitors on last Wednesday evening. Their entertainment was considered the best that has been here for a long time. They are very popular here, and if ever they return will be greeted with a full house. Mr. Fyfe turns out, as the bills say to be everybody's friend.

The new proprietors of the paper mill, we understand, expect to keep it running and manufacturing wrapping paper, for which there seems to be a great demand. Ever since it commenced this establishment has been making the best qualities of paper, of straw and similar material.

Much of the weather during this month has been pleasant—unusually so—anything but Hood's November, which he characterizes as a season with no sun, no moon, no anytime of day, on account of the dark, damp, heavy atmosphere, laden with fog, and the sky covered over with clouds, which are often leaking out a drizzling rain. But the month is not yet over, and we may still be visited with the "melancholy" days, the saddest of the year.

Mr. Wm. Clay has been making decided improvements on his premises, connected with the carriage manufactory. Repairing and repainting make such things look as good as new.

Mr. Wm. D. Kilgore, of Tuscarawas township, exhibited at this office the other day two ears of corn, one of which contains 1160 and the other 1200 grains. He thinks these specimens are hard to beat. He also left with us a dozen fine large apples, the aggregate weight of which is 9½ pounds. Some of these apples weigh 12 and 13 ounces each. Thus far Tuscarawas farmers and fruit raisers are decidedly ahead.

The Ohio Educational Monthly for November abounds in excellent reading matter, adapted to the needs of teachers, school officers, and the friends of education generally. The longer this magazine lives the more it appears to prosper.

Every Saturday by Fields, Osgood & Co., of Boston, since taking its present shape, and with all the improvements, it is a model paper of the kind. It is printed in the best style, on tinted paper, and each number has several fine illustrations—and the publishers often throw in a double page picture, which must cost them considerable, yet they furnish them freely thus adding to the other great attractions of this model weekly.

The undersigned acknowledges the prompt payment from the Ohio Farmer's Insurance Company of \$8000, for loss of his barn recently burned by an incendiary, of which J. R. McDowell is agent. Also, of the Andes Corp., of Cincinnati; Pacific, San Francisco; and Home, Columbus, \$1,500 each, of which A. Ryder & Son are agents.

When the election is over we have observed, for two score years, that many of the newspapers which just before that event were brimful of editorials, are as barren of original articles as Sahara is of grass. Just as if their editors were not competent to write anything but political matters, and that in a very shabby sort of way. It is time this practice was changed.

Dr. Libby, of Cleveland, known by his wonderful skill in completely curing cases of long standing after given up by all others, contemplates a call of one day only, at Massillon. During the past twenty years he has made chronic diseases a special study and has probably treated more than any ten physicians in this country, successfully, he is not a traveling physician, but is permanently located at Cleveland. This call is simply to give those that would consult him in person a chance to do so. He wants cases that other physicians have given up, and treats no other. This is certainly a rare chance for the people of Massillon and vicinity. He will be at the American House, Wednesday, Nov. 17th.

Parties who are in business will do well to have letter heads, bill heads, blank statement, envelopes, &c., printed. It looks more methodical, and is becoming quite common. We are prepared to do such work—so bring on your orders.

The governor's proclamation for Thanksgiving, which appears on the first page is a model of brevity certainly commendable. We insert it without the embellishments, and it is just as efficient as a half column production.

The *Prohibition Era* is the title of a new and handsomely printed paper, of seven columns, just commenced at Cleveland—publisher, M. Worfolk. The first number is well filled with brief and spicy articles in relation to the cause the paper so efficiently advocates. This new agency in the temperance cause will have a good effect in diffusing the principles so ably labors to uphold. Good writers contribute to its columns, who discuss and illustrate this beneficent reform so as to attract the attention of every reader. It is not a demure, tame sort of a paper, whose dull articles will put the reader to sleep, but there is snap in every part of it,—quite enough, to keep the reader wide awake. The *Temperance Times* recently published at Dayton has been suspended.

Mr. I. Crooks raised another great cabbage in his garden, one which weighs 17 pounds. Good stock for krait.

Mrs. Donaldson, of this place, has the agency for several new and interesting works, for which she proposes to canvass. Prominent among them is *Life in Utah*, by J. H. Bendle, who has written a full expose of the inner workings and mysteries practiced among the Mormons. The work is highly commended by critics everywhere as one entitled to credit, and cannot fail to interest the general reader. She also has another book, *Our Father's House*, a very valuable contribution to the religious literature of the day. Also, *God in the Creation*, which the clergy and papers highly extol as a work of superior merit. All these books are just issued and are sold by agents only, so our citizens who wish any or all of them, will do well to embrace the opportunity which Mrs. D. presents for securing them.

OUR ARRANGEMENTS AND FACILITIES.

We are prepared to give prompt attention to those who arrive by the R. R. cars or steamboats and wish to depart the same day.

Persons at a distance wishing to obtain medicines for their friends, will bring a specimen of urine for examination, or have it sent by express.

The patients will be careful to take the first urine passed after a night's rest, and in all cases to give their age. This latter is necessary to a correct diagnosis as well as to the regulation of the quantity of medicine prescribed.

We would like to have the name and residence also of every patient. The advantages of this will be apparent to all, but especially to those who may wish to send back for a second course of medicine.

We keep a regular record of each prescription, by comparison with which we are enabled on subsequent examinations to determine the improvement in the case and make the required changes in treatment when necessary.

The facilities which packet boats and express lines furnish for quick transportation of small packages, to and from every point within five hundred miles of this place, make it sufficiently convenient for the treatment of all chronic diseases. In fact, this system of diagnosis, conducted upon the latest scientific principles of Urine Pathology, is far more certain and much more to be depended on, than the usual 'pulse and tongue' examinations alone.

At Toledo, a heavy and somewhat novel suit for damages has been commenced in the common pleas court by J. W. Myers against H. J. Raffensperger. The suit is brought for damages to Myers' elegant new block, on the corner of Summit and Monroe streets, caused by Raffensperger's posting the announcement of his auction sale of real estate on the walls of said block. Both parties have retained the ablest legal counsel in that part of the state, and propose to fight the matter to the end. Myers claims \$5000 damages.

George H. Grigg, master mechanic on the Worcester and Nashua railroad has invented an apparatus by which the cinders are taken from the smoke stack of a locomotive and carried into the furnace to be burned, instead of into the eyes of the passengers.

Washington, November 5.—The internal revenue receipts to-day were \$597,545. Total for fiscal year \$602,865.59. The receipts of customs for the week ending October 23, were \$3,145,145.

The coin balance in the treasury is \$98,402,000, including \$14,735,000 coin certificates. The currency balance is \$23,800,000.

The spirit of Esculapian should pay a medium—if not a full sized—visit to Pittsburgh, and enter upon a little reformatory work among his disciples there. Dr. Thomas Hewitt goes to the Penitentiary for causing the death of Isabella Werner by abortion, and Dr. Hastings, a well known druggist, convicted of embezzling, was sentenced to three years in the same institution.

Full accounts of the Norfolk riot, received in Washington, show that there was a plan to kill all the principal participants in the republican meeting. Sticks and other missiles were thrown at Secretary Robeson, and one man took deliberate aim and fired five shots at Professor Langston, and other speakers. The police aided and abetted the rioters.

DIED.—On the 4th inst. FRANK HINE, of this place aged about 20 years. He belonged to the Vigilant fire company, the members of which, and others connected with the fire department, turned out to his funeral on Saturday.

TO PHYSICIANS.

New York, August 15th, 1868.

Now to call attention to my Preparation of Compound Extract Buchu. The component parts are Buchu, Long Leaf, Cubebs, Juniper Berries.

Mode of Preparation.—Buchu, in vacuo. Juniper berries, by distillation to form a fine oil. Cubebs extracted by displacement with spirits obtained from Juniper Berries, very little sugar is used and a small proportion of spirit. It is more palatable than any now in use.

Buchu as prepared by druggists, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients. The buchu in my preparation predominate; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection it will be found not to be a tincture, as made in pharmacopoeia, nor is it a syrup, and therefore can be used in cases where fever or inflammation exists. In this, you have a knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation.

With a feeling of profound confidence, I am, very respectfully,

H. T. HELMBOLD,
Chemist and druggist of 19 years experience.

(From the largest Manufacturing Chemists in the world.)

November 4, 1854.

"I am acquainted with Mr. H. T. Helmbold; he occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise."

WILLIAM WRIGHTMAN,
Firm as Powers & Weightman, Manufacturing Chemists, Ninth and Brown Streets, Philadelphia.

HELMBOLD'S FLUID EXTRACT BUCHU.

For weakness arising from indolence. The exhausted powers of nature which are accompanied by so many alarming symptoms among which will be found indisposition to exertion, loss of memory, wakefulness, horror of disease, or forebodings of evil; in fact, universal lassitude, prostration, and inability to enter into the enjoyment of society.

THE CONSTITUTION GET THE BEST!

once affected with organic weakness, requires the aid of medicine to strengthen and invigorate the system, which Helmbold's Extract Buchu invariably does. If no treatment is submitted to, consumption or insanity ensues.

Helmbold's Fluid Extract Buchu in affections peculiar to females, is unequalled by any other preparation, as to chlorosis, or retention, painful, or suppression of customary evacuations, ulcerated or Schirrus state of the uterus, and all complaints incidental to the sex, or the decline or change of life.

Helmbold's Fluid Extract Buchu

AND

IMPROVED ROSE WASH

will radiantly exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, no inconvenience or exposure; completely superseding those unpleasant and dangerous remedies copays and mercury, in all these diseases.

U S E

Helmbold's Fluid Extract Buchu

In all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter how long standing. It is pleasant in taste and odor, immediate in action, and more strengthening than any of the preparations of bark or iron. Those suffering from broken down or delicate constitutions, procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to effect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. Helmbold's Extract Buchu is the great Diuretic.

Sold by druggists everywhere. Price \$1.25 per bottle, or 6 bottles for \$6.50. Delivered to any address. Describe symptoms in all communications. Address,

H. T. HELMBOLD,

DRUG AND CHEMICAL WAREHOUSE

594, Broadway, N. Y.

Note are genuine unless done up in steel engraved wrapper, with fac-simile of my Chemical Warehouse, and signed.

"Unquestionably the best sustained work of the kind in the World."

HARPER'S MAGAZINE.

Notice of the Press.

No more delightful travels are printed in the English language than appear in Harper's Magazine. They are read with equal interest and satisfaction by boys of every grade from eighteen to eighty. Its scientific papers, while sufficiently profound to demand the attention of the learned, are yet admirably adapted to the popular understanding, and designed as much to diffuse correct information concerning current scientific discovery as it could be if it was the organ of the "Society for the Diffusion of Useful Knowledge." The great design of Harper's is to give correct information and rational amusement to the great masses of the people. There are few intelligent American families in which Harper's Magazine could not be an appreciated and highly-welcome guest. There is no monthly magazine, an intelligent reading family can less afford to be without. Many magazines are accumulated. Harper's is edited. There is not a magazine printed which shows more intelligent pains expended on its articles and mechanical execution. There is not a cheaper magazine published as it could be if it was the organ of the "Society for the Diffusion of Useful Knowledge." The great design of Harper's is to give correct information and rational amusement to the great masses of the people. There are few intelligent American families in which Harper's Magazine could not be an appreciated and highly-welcome guest. AN INDICTMENT.
The history of King Alcohol is a history of shame and corruption, of cruelty, crime, rage and ruin. He has taken the glory of health from off the cheek and placed there the reddish hue of the wine cup. He has taken the lustre from the eye and made it dim and bloodshot. He has taken beauty and comeliness from the face and left it ill-shaped and bloated. He has taken the strength from the limbs and made them weak and tottering. He has taken firmness and elasticity from the step and made it faltering and treacherous. He has taken vigor from the arm and left there flabbiness and weakness. He has taken vitality from the blood and filled it with poison and seeds of disease and death. He has transformed this body, fearfully and wonderfully made, God's masterpiece of animal mechanism, into a vile, toothsome, stinking mass of humanity. He has entered the brain—the temple of thought—dethroned reason, and made it reel with folly. He has taken the beam of intelligence from out of the eye, and exchanged for it the stupid stare of idiocy and dullness. He takes the impress of ennobled manhood from off the face and left the mark of sensuality and brutishness. He has bribed the tongue to utter madness and cursing. He has turned the lips to sources of ribaldry and reveling. He has taken cunning from the hands and turned them from deeds of usefulness to become instruments of brutality and murder. He has broken the ties of friendship, and planted the seeds of enmity. He has made the kind, indulgent father, a brute, a tyrant, a murderer. He has transformed the loving mother into a very fiend of brutish incarnation. He has made obedient and affectionate sons and daughters the breakers of hearts and the destroyers of homes. He has taken luxuries from off the table, and has compelled man to cry on account of famine, and to beg for bread. He has stripped backs of their broadcloth and silk, and clothed them with rags. He has stolen man's palaces, and given them wretched hovels in exchange. He has taken away acres and given not even a decent burial place in death. He has filled our streets and ways with violence and lawlessness. He has complicated our laws and crowded our courts. He has lifted to overflowing our houses of correction and penitentiaries. He has peopled with his multitude our poor houses. He has straightened us for room in our insane asylums. He has filled our world with tears and groans, with poor and helpless, with wretchedness and woe. He has taken away faith, and hope, and charity, yea, and all that is lovely and of good report, and given despair, infidelity, enmity and all the emotions, and deeds of wickedness. He has banished Christ from the heart and created a hell within. He has wrecked and enfeebled the bodies, shattered and destroyed the minds, imperiled and damned the souls of our fellow men. These are the counts of our indictment. Let the world judge of the truth.

The chief secret of comfort lies in not suffering trifles to vex one, and in prudently cultivating an undergrowth of small pleasures, since very few great ones are let on long leases.

There is a knife and fork manufactory in South Meriden, Conn., in which are annually used about two hundred tons of steel for blades, twenty thousand dollars worth of solid silver for plating. The annual payroll amounts to two hundred thousand dollars.

Fame is like a shaven pig with a greased tail and it is only after it has slipped through the hands of some thousands that some fellow by good luck holds on to it.

An Irish girl having been sent to the postoffice for the mail, came back to inquire whether it was Indian mail or corn mail that was wanted.

Hall's Vegetable Sicilian Hair Renewer is the most reliable article in use for restoring gray hair to its original color and promoting its growth.

A practical Yankee being told that in the Millennium the lion and the lamb would lie down together, said the expected the lamb would lie down inside the lion.

A man counting a young woman was interrogated by her father as to his profession. "I am a paper hanger upon a large scale," he replied. He married the girl, and turned out to be a bill sticker.

BAD PRACTICE.—You might as well expect to relieve and cure an inflamed eye by dusting irritating powders into it, as to expect to subdue and cure catarrh (which is an inflammation of the mucous membrane of the air passages in the head) by the use of irritating snuff or strong caustic solutions. Dr. Sage's Catarrh Remedy cures catarrh by its mild soothing action, which subdues the inflammation and restores the natural secretion of the mucous follicles. The proprietor offers \$500 for a case of catarrh that he cannot cure, sent by mail on receipt of fifty cents paid by druggists. Address R. V. Pierce, M. D. 133 Beacon street, Buffalo, N. Y.

McDONALD & BRUCE
The Independent,
Massillon, Ohio.
Is now Seven Years Old, and "Still Lives."

Without boasting of being an organ of immense influence, we may with confidence claim that the paper is not without usefulness in the right direction, ever contending for justice in all the living issues of the day. But its principal business has ever been to subserve the local interests of the community with which it is identified, and so it proposes to continue. Its home record of the ever varying phases of business, of the prosperity of the city, and of the social and moral state of society here, with other matters too numerous to specify, will give those who come after us, and have occasion to examine the files of this paper, a faithful history of the years of its existence.

We solicit the continued patronage of our people in the confidence that we shall render satisfaction—at least as near as we can come to it—and for such as are removing elsewhere we hope to make the Independent a very welcome visitor.

ADVERTISING
Done on easy terms. Our patrons have been liberal toward us in this respect, and we hope they may continue such welcome favors, satisfied that they are well paid for their investments.

JOB WORK
Attended to on short notice and at terms within the reach of all.

Having a Power JOB PRESS of the Largest Size, Best Construction, Latest Improvement, Adapted to the printing of Posters, Handbills, Blanks, Cards, Programmes, Dodgers, &c., &c., We invite our friends to give us a call and favor us with their orders.

M. O. WAGGONER, Gen'l. Supt. for Ohio and Michigan, Norwalk, O.
Col. EDWARD BRIGGS, Special Agent, Massillon, O.
Dr. D. R. LYON, Medical Examiner. 249 ly

Dr. J. LONG
Eclectic Physician.
Has located himself at Massillon, O., for the treatment of
Female & Chronic Diseases.
Office on Main street, four doors east of the American Hotel.
All consultations and examinations of patients made free of charge.
Dr. Long examines and explains your disease without asking any questions. If he understands your case, you know it, and cannot be deceived. If he cannot tell your disease, and "how you feel" without asking questions, he does not consider himself competent to treat your case. This is the criterion to go by, and patients should not be satisfied with any other. This is the only direct and positive evidence of my ability as a scientific physician, and by this standard I am willing to be judged.
A proper diagnosis of local disease, without constitutional symptoms, that is not affecting the system generally, must depend upon the judgment of both patient and physician.
Give Dr. Long a call, and satisfy your senses whether he understands your case sufficiently well to treat them successfully.
Dr. Long may be consulted in the German and English languages. Address letters, JAMES LONG, M. D., 371-ly Massillon, Ohio.

JOS COLEMAN.

NRS. ALLEN'S
Hair Restorer & Zylolalsamum
Are so uniformly grateful and beneficial, that they are with justice called the natural strengtheners of the human hair. They are two entirely separate and distinct preparations, not to be used together at one time.
Mrs. Allen's Hair Restorer
Never fails to satisfy the most refined and cultivated. A guarantee goes with every bottle, that it will quickly restore gray or white hair to its original youthful beauty, gloss and color; after its use a few times the hair will grow thicker and stronger. It will stop its falling and induce a healthy and luxuriant growth. It is an exquisite hair dressing, agreeable, harmless and healthy. Entirely different from most other preparations for the hair, its composition and ingredients are nourishing, giving life and vigor to the roots.
Mrs. Allen's Zylolalsamum
This exquisite preparation is free from any sediment, and is a toilet treasure. The urgent want of a simple Hair Dressing, for the youth, of both sexes, first induced the manufacture of the Zylolalsamum, and the sale of it is perfectly immense, not only in this country, but in Europe.
EXTRACTS FROM A FEW LETTERS.
"Your Zylolalsamum is used by every member, young and old, of our family, and after its use, the hair grows thicker and stronger, and is as delighted with it, as I am restored to my hair, and so on all find in the Zylolalsamum all their hair requires."
From the Principal of one of our large Female Seminars: "Your Zylolalsamum has been used for many years by myself and family, and is the favorite among our young ladies."
Sold by all Druggists. Wholesale Depot, S. R. VAN DUZER & CO., 35 Barclay St. and 40 Park Place, New-York.

DR. WHITTIER
Continues to treat all private diseases, syphilis in all its forms, gonorrhea, gleet, stricture, oritis, and all urinary diseases, and the effects of mercury are completely eradicated. He treats all cases of weakness and impotency, resulting from self abuse or other causes, and which produce some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally, producing the sexual system as to render marriage impracticable, and therefore imprudent, are permanently cured.
It is self evident that the physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must be a greater benefactor to his specialty than one in general practice.
The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the doctor's opinion can be obtained by giving a written statement of the case, and medicines can be sent by mail or express.
The doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases that can be had free at office or by mail, in sealed envelope, for two stamps. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.
Hours 9 a.m. to 5 p.m. Sundays 12 m. to 2 p.m. Office, No. 9 Wylie street, (near the court house), Pittsburg, Pa. 805-ly

DR. SAGE'S CATARRH REMEDY

I do not wish to inform you, reader, that Dr. Wonderful, or any other man, has discovered a remedy that cures catarrh, when the cure is half consumed. In short, will cure all diseases whether of men, women, or estate, make men live forever, and leave death to play for want of work, and is designed to make the sublimity sphere a blissful paradise, to which heaven itself shall be a side show. You have heard enough of that kind of humbuggery. But when I tell you that Dr. Sage's Catarrh Remedy will cure the worst cases of catarrh in the head, I only assert that which thousands can testify to. I will pay \$500 reward for a case that I cannot cure. A pamphlet giving symptoms and other information sent free to any address. This remedy is Sold by Most Druggists in all parts of the World.
Price 50 cents. Sent by mail, postpaid, on receipt of six cents, or four cents for two bottles. Beware of counterfeits and worthless imitations. See that my private stamp, which is a positive guarantee of genuineness, is upon the outside wrapper. Remember that this private stamp issued by the U. S. Government expressly for stamping my medicines, has my portrait name and address never to be used to sell the medicine. R. V. PIERCE, M. D. 133 Beacon street, Buffalo, N. Y. 250-2m
